Alliance Venture osoba rizikového kapitálu a.s. is registered with the Czech National Bank (CNB) in accordance with section 15 of Act No. 240/2013 Sb on Investment Companies and Investment Funds (ZISIF). The fund's activities are not subject to CNB regulation but Fund is required to fulfill reporting obligations in accordance with Article 1(110) of Commission Delegated Regulation (EU) No. 231/2013 supplementing Directive 2011/61/EU of the European Parliament and of the Council.

**ABOUT THE PRODUCT****TYPE:**

The investment product "Classic derivatives algo" is an actively managed portfolio of collective investment instruments.

**GOAL:**

The goal of the investment product is to achieve portfolio growth within the recommended investment horizon. The investment strategy "Classic derivatives algo" involves short-term buying or selling of financial assets using both algorithmic and "manual" trading, along with leverage. The strategy utilizes the following instruments: stocks, ETFs, futures, options, foreign currencies, bonds, and other exchange-traded investment instruments listed on exchanges such as CBOE, LSE, NYMEX, NYSE, NASDAQ and others.

**TARGET INVESTOR:**

This product is intended exclusively for qualified investors as defined under Section 272 (1) ZISIF. The product is suitable for investors who wish to diversify their portfolio with alternative investment types offering higher potential returns and are willing to bear the risk of loss.

Investor's Investment Horizon: 1 year. Minimum Investment Amount: €125,000.

The product is primarily suitable for investors who:

- Are able to accept the loss of a significant part of their invested capital;
- Can tolerate the high liquidity of their investments;
- Are comfortable with the high volatility of the value of their investments;
- Possess knowledge and experience in investing with leverage;

- Have knowledge and experience in investing in securities.

## WHAT ARE THE RISKS AND EXPECTED RETURNS?

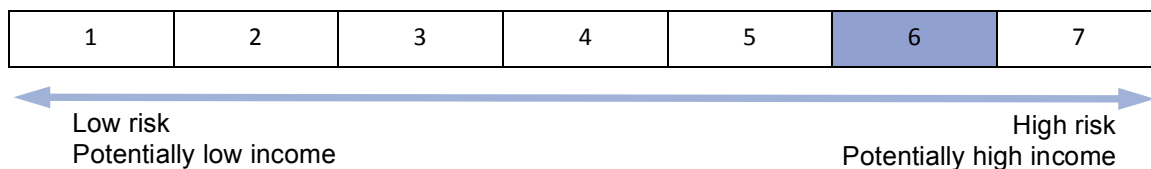

### SUMMARY RISK INDICATOR – SRI

#### NOTICE:

The SRI (Summary Risk Indicator) suggests that the investment in this product should be held for at least 5 years. Actual risk may vary significantly if you request a return on your investment before this period.

The SRI helps to compare the risk level of the product in question with the risk levels of other products. This risk indicator reflects the probability of the investor will lose money due to market fluctuations..

#### Summary Risk Indicator

We have classified this product as 6 out of 7, which represents a risk class above average. This classification is based on the possibility of using leverage in the product. The risk indicator assumes a 5-year investment horizon. The actual level of risk may vary depending on the investment duration.

### RETURN SCENARIOS

The following table shows the amount an investor could receive over 5 years under different scenarios, assuming an initial investment of €200,000.

The presented scenarios represent an estimated projection of future outcomes and are not exact indicators. Returns may vary depending on market performance and the duration of the investment. The figures provided include all costs (fees) associated with the product, where applicable. However, these figures do not take into account taxation on your income in your jurisdiction.

Scenarios		1 year	3 years	5 years
Stress scenario	Investment amount after all costs are accounted	€170 000	€122 825	€88 741
	Average annual return	-15%	-15%	-15%
Unfavorable Scenario	Investment amount after all costs are accounted	€190 000	€171 475	€154 756
	Average annual return	-5%	-5%	-5%
Moderate Scenario	Investment amount after all costs are accounted	€224 625	€285 335	€362 295
	Average annual return At a 15% return	12,3%	12,7%	12,7%
Favorable Scenario	Investment amount after all costs are accounted	€240 500	€360 947	€540 00
	Average annual return At a 30% return	20,3%	22,1%	22,3%

**WHAT HAPPENS IF ALLIANCE VENTURE OSOBA RIZIKOVÉHO KAPITÁLU A.S. CANNOT MAKE PAYMENTS?**

The assets entrusted by investors for management are not the property of the asset manager, Alliance Venture osoba rizikového kapitálu a.s., and are separated from the assets of Alliance Venture osoba rizikového kapitálu a.s. All investor assets are held in investments or on separate accounts managed by Alliance Venture osoba rizikového kapitálu a.s. In the event of insolvency or liquidation of the asset manager Alliance Venture osoba rizikového kapitálu a.s., all assets will be divided among individual investors in accordance with their share of the total assets.

Investors may face financial losses, and such losses are not covered by compensation or an investment guarantee scheme.

**WHAT ARE THE EXPENSES ASSOCIATED WITH THE INVESTMENTS?**

Reduction in Yield (RIY) shows how the total costs you pay will impact the return on your investment. The total costs include one-off, ongoing, and additional expenses.

The table provides an estimated calculation of the fees and expenses associated with the investment over three different investment periods. These figures represent an estimated projection of fees and expenses and are not exact indicators. They include possible charges for early termination of the contract. Data assume an initial investment of €200,000 and are calculated based on the Moderate Scenario. These figures are estimated and may change in the future.

**EXPENSES OVER TIME**

The person selling or advising you on this product may charge additional fees. If this is the case, they must provide you with information about these costs and explain the impact that all costs will have on your investments over time..

Investment amount: 200 000 EUR	1 year	3 years	5 years
Total Expenses Over the Entire Period	€5375	€16 346	€30 414
Impact on Return (RIY) per Year	18%	18%	18%

**EXPENSE STRUCTURE**

The table below shows:

- the impact of each type of expense that you might incur by the end of the recommended holding period;
- the significance of various types of expenses on the annual return based on the Moderate Scenario model.

Impact on Annual Return			
One-Time Expenses	Entry Fee	0%	Impact of costs paid when entering the investment
	Exit Fee	0%	Impact of costs paid when exiting the investment
	Early Exit Fee	2%	Impact of early exit costs (before 1 year from the investment date)
Ongoing Expenses	Portfolio Transaction Costs	0%	Impact of costs for buying or selling assets within the managed portfolio
	Other Ongoing Costs	0%	Impact of annual management costs for your investment

Additional Fees	Capital Gains Fee		<p>This fee is calculated using the "high water mark" principle. The "Calculation Period" is defined as the period starting on the first day of each month and ending on the last day of each month. This fee is intended to reward investment managers.</p> <p>The fee structure is as follows:</p> <ul style="list-style-type: none"><li>• For returns between 0% and 12%, the fee is 15%.</li><li>• For returns between 12% and 48%, the fee ranges from 15% to 50% (calculated according to the formula specified in the contract).</li><li>• For returns exceeding 48%, the fee is 50%.</li></ul>

#### HOW LONG SHOULD I HOLD THIS INVESTMENT? IS EARLY WITHDRAWAL POSSIBLE?

The recommended investment horizon is 5 years.

The minimum investment period is 1 year.

Early withdrawal is possible no earlier than 1 month after the investment, and requires the approval of the asset manager, as early withdrawal may lead to premature or unfavorable asset liquidation, which could negatively impact the value of the product.

#### HOW CAN I FILE A COMPLAINT?

You can file a complaint:

- By calling the Contact Center at: +420 704-332-406
- By email at: [support@alliance-vc.com](mailto:support@alliance-vc.com)
